

- 10% ammonia
- 10% ammonium chloride
- 20% citric acid
- 10% hydrogen peroxide
- 9.6% sodium hypochlorite
- Ethylene glycol
- Propylene glycol
- 2-propanol 96%
- ethanol Ammonium
- nitrate solution
- Copper nitrate solution
- Lead nitrate solution
- Potassium nitrate solution
- Sodium nitrate solution
- Silver nitrate solution
- Calcium nitrate solution
- Sodium benzoate
- Borax solution
- Potassium borate solution
- Lithium bromide solution
- Potassium bromide solution
- Potassium chlorate solution
- Sodium chlorate solution
- Lithium chloride solution
- Magnesium chloride solution
- Copper chloride solution
- Nickel chloride solution
- Potassium chloride solution

- Sodium chloride solution
- Calcium chloride solution
- Dextrin solution
- surfactants
- Dipentene (Limonene)
- Ammonium fluoride
- Copper fluoride
- Glycerol solution
- Butylene glycol
- Diethylene glycol
- Glucose solution
- Potassium iodide solution
- Glycolic acid
- Lactic acid
- Salicylic acid
- Stearic acid
- Baking soda solution
- Urea solution
- Potassium perchlorate
- Potassium permanganate
- Petroleum
- Mineral machine oil
- Mineral oil
- Diesel
- Paraffin oil
- Engine oil
- Transformer oil
- Vaseline oil

- Silicone oil
- Fragrance oils (e.g. lavender, pine)
- Crude oil
- Ammonium sulphate solution
- Magnesium sulfate solution
- Copper sulfate solution
- Nickel sulfate solution
- Potassium sulphate solution
- Sodium sulfate solution
- Ammonium carbonate solution
- Potassium carbonate solution
- Sodium carbonate (technical, solution)
- Sea water
- Potassium bisulphate solution
- Barium hydroxide solution
- Calcium hydroxide solution
